DEPARTMENT OF AGRICULTURE, BENGAL.

Monthly Weather and Crop Report of Bengal for November 1927.

I. Character of the season.—The rainfall during the month was markedly in defect of the normal throughout the Presidency, excepting only in the districts of Jalpaiguri, Darjeeling and Rangpur and in the States of Cooch Behar and Tripura where it was a little above the average. The usual rainfall statement is appended.

II. Progress of agricultural operations.—Preparatory tillage for and sowings of spring crops were proceeding favourably, excepting in some West and North Bengal districts where there was lack of adequate soil-moisture. Reaping of winter paddy continued under favourable conditions in East and North Bengal, while in West Bengal the operation had just commenced.

III. State of standing crops.—The condition of sugarcane was generally favourable, while that of other standing crops was reported to be fair except in some West and North Bengal districts where they are in a poor condition.

IV. Prospects and probable outturn.—A fair outturn of winter paddy is expected to be reaped for the province, except in some West and North Bengal districts where the prospects were reported to be poor owing to lack of timely rain. The outturn of *bhadoi* crops is estimated at 80 per cent, and that of winter paddy at 75 per cent. of the normal.

V. Damage to standing crops.—Transplanted paddy and other standing crops were damaged in parts of West and North Bengal owing to drought.

VI. Condition of agricultural stock.—The condition of livestock was generally fair. Cattle-disease, however, was reported from fourteen districts of the province and from the States of Cooch Behar and Tripura.

VII. Failure of pasture and fodder.—No insufficiency of fodder was reported except in parts of Murshidabad, Birbhum and Faridpur.

VIII. Prices of food-grains.—Owing to an influx of new rice into the market, the price of common rice of the cheapest quality, during the second fortnight of the month, fell in all the districts of the province, except only in Dinajpur where it was stationary. It varied from 6½ seers per rupee at Howrah and Chittagong to 4½ seers at Noakhali.

IX. Condition of agricultural population.—The condition of agricultural people was on the whole fair, except in parts of Birbhum, Bankura, Dinajpur and Malda where distress prevailed owing to a partial failure of winter rice crop this year. Test relief works were opened and agricultural loans were being distributed. In parts of Nadia preliminary measures were being taken for apprehended distress.

DEPARTMENT OF AGRICULTURE, BENGAL.

First Forecast of the Spring Oilseed Crops of Bengal, 1927-28.

(Note.—On an average of the five years ending 1925-26, the area under linseed in Bengal has represented some 3·4 per cent. and that under rape and mustard 11·6 per cent. of the total area under these crops in British India.)

Explanatory.—Three forecasts are issued for the spring oilseed crops. The present one deals with the area sown and the condition of the crops.

Area sown.—Oilseeds are grown chiefly in the Rajshahi, Dacca and Presidency Divisions. In the other two divisions, the cultivation is small. The total area under these crops (excepting sesamum for which separate forecasts are issued) is returned at 858·500 acres this year as against 924·200 and 936·500 acres, respectively, in the corresponding and final forecasts of last year.

Character of the season.—The rainfall in September was above the normal in the Chittagong and in parts of the Rajshahi and Dacca Divisions, while elsewhere it was deficient. In October the rainfall was below the normal, except only in Jalpaiguri, Mymensingh, Chittagong and the Chittagong Hill Tracts where it was in excess. The preparatory tillage for the crops, as a consequence, commenced generally under favourable conditions. Dry weather since the latter part of October also was helpful to sowings which were generally normal, except only in parts of West and North Bengal, owing to lack of adequate soil-moisture. The present condition of the crops is fair on the whole, except in the districts of Nadia, Burdwan, Rajshahi and Malda where it is reported to be poor.

R. S. FINLOW,

DACCA, the 15th December 1927.

Director of Agriculture, Bengal.

STATEMENT OF OBJECTS AND REASONS.

Under section 4 of the Bengal Medical Act, 1914, the Council of Medical Registration consists of the following 15 members:—

- (1) A President and 7 members nominated by the Local Government.
- (2) One representative of the Calcutta University.
- (3) Six representatives of different classes of medical practitioners.

It is considered that the time has come to make the Council a more representative body by including members elected by the staffs of the School of Tropical Medicine and of other recognised medical colleges and schools which are already in existence or which may come into existence from time to time. It is also proposed to include a representative of the Railway Board which employs a large number of medical men. As it is not desirable to make the Council too unwieldy, it is proposed to cut down the Government nominees from 7 to 3, and to reduce by one the number of representatives of the graduates and licentiates in medicine or surgery of the Calcutta University. The opportunity has been taken to give the Council specific power to inspect medical institutions, to extend and define the power of the Council, to act through committees for inspection and other purposes, and to authorize the payment of fees for attendance at committee meetings and of travelling allowances for such attendance and for visits of inspection. Other amendments are consequential.

[New.]

STATEMENT OF OBJECTS AND REASONS.

The object of this Bill is to remove certain defects both in substance and form which experience in its working has shown to exist in the Bengal Mining Settlements Act, 1912. It is proposed to enlarge the constitution of the Mines Board of Health, to give authority for the appointment of a Vice-Chairman of the Board, to enable the delegation of powers and duties of the Board to the Chairman and Vice-Chairman, to empower the Board itself to execute necessary sanitary measures and to meet anticipated expenditure by the imposition of a cess. Powers have also been given to the Board to require owners of mines to provide suitable house accommodation and medical assistance for their labourers and to compel owners or occupiers of land and buildings (as well as mine-owners) to improve insanitary properties and to enforce on the public generally regulations preventing nuisances affecting the public health. The amendment, which generally proceeds on the lines of the Bihar and Orissa Mining Settlement Act, 1920, affords an opportunity for re-casting and improving the arrangement of the provisions of the existing Bengal Act.

A. K. GHUZNAVI,

Member-in-charge.

CALCUTTA;

NOTES ON CLAUSES.

Clause 1(3).—Provision has been made to bring this Act into force in whole or in part in any area from any date that may be specified in a notification by the Local Government according to administrative convenience.

Clause 2(2).—It has been provided that any property held by a Mines Board of Health under the existing Act shall vest in such Mines Board of Health established under the new Act as the Local Government may direct.

Clauses 4 and 6.—Under the existing Act a Board is constituted before the area which it is to control is declared to be a Mining Settlement; the reverse procedure would seem preferable since many of the members of the Board will be selected from residents of the Mining Settlement. If the Board when constituted is of opinion that the area should be increased or diminished the Local Government can take action under clause 4(3) on its recommendation.

Clause 5(2).—The incorporation of a Board is necessary for the purpose of litigation and other purposes.

Clause 6.—The procedure prescribed by the existing Act for the constitution of the Board is somewhat cumbersome. A member referred to in sub-sections (2) and (3) of section 3 of the Act must first be elected by his class under the rules providing for the nomination of members framed under section 11(2) (a), then be nominated by that class and then be appointed by the Local Government under section 3(1). It is more simple to provide that the Board shall consist of a specified number of members some of whom shall be elected by certain classes and the others be nominated by Government. The knowledge of local sanitary requirements and local interests possessed by the members elected and nominated would prove most useful to the Board.

Clause 6(5).—Provision has been made for granting leave to the members.

Clauses 7, 8, 9 and 24(2) (c).—From section 8 of the existing Act it would appear that the Chairman can exercise the powers of the Board only in cases of urgency; section 11(2) (a) enables the Government to make rules to regulate his powers and functions but no powers are expressed in the Act, and no power is given to the Board to delegate its powers to the Chairman.

Experience has shown that for the efficient discharge of its duties the Board requires the services of a Vice-Chairman, yet the Act makes no provision for one.

These clauses remedy the above defects while they enable Government to regulate the exercise by, and the delegation to, the Chairman, Vice-Chairman and any officer of the Board of powers under the Act or rules.

Clauses 10, 11 and 24(2) (h).—The existing Act makes no mention of the fund to which moneys recovered are to be credited and from which current expenses are to be met, nor does it provide for the framing of estimates and the keeping of accounts; there is merely a power to make rules to regulate expenditure. Definite provisions on these points are necessary.

Clause 12, 13 and 24(2) (d).—No provision is made in the existing Act for the appointment, suspension, dismissal, pay, pension, provident or annuity fund, etc., of the officers and servants of the Board, a definite provision is necessary.

Clause 14.—This clause makes it clear that the salaries of the Medical Officers of Health appointed by the Local Government are to be paid by the Board.

Clause 15.—This clause embodies the provisions of sections 5 and 12 of the existing Act, allowing not only duties but also powers to be assigned to Medical Officers of Health and Sanitary Inspectors by rules and directions of the Local Government and to be delegated to them by the Board.

Clause 16 lays down that mine-owners are to provide such house-accommodation, water-supply, sanitary arrangements, etc., for labourers as the Board may require in the interests of sanitation.

Clause 17 reproduces the existing provision of the law as contained in section 13 of the present Act.

Clause 18.—Under the present law, if the Board considers that any measures should be taken it is bound to serve notices on mine-owners and others requiring them to take action. It is considered proper to give the Board power to take action itself.

Clause 19.—Sub-clause (1) retains the Boards' power to call on the owner of a mine to take action in cases in which he is responsible for the insanitary condition of his property, and, in the alternative, to take measures itself at the defaulting owner's expense in urgent cases. The provision in sub-clause (2) is new. For the sanitation of a Mining Settlement to be a success it is necessary that there be power to deal with every part of the Settlement, whether occupied by labourers in the mines or by others.

Clause 20 provides for hearing by the Board of objections from any person on whom a notice has been served.

Clause 21.—Sub-clause (1) gives power to the Board to execute work in case an owner or occupier who is required to do it, makes default and to recover costs from the defaulter.

Such cost shall be a first charge on the property of the defaulter under sub-clause (2).

Clause 22 provides for appeals to the Commissioner from the Board's orders under clauses 19(3) and 20.

Clause 23.—The provisions of section 10 of the existing Act regarding the recovery of expenses are considered unsatisfactory. This clause takes power to impose a regular tax to meet the estimated expenditure instead of merely recovering expenditure actually incurred. The Local Government is given by clause 24(2) (f) power to limit the rates of the assessment.

Clause 25 takes for the Board a new power of making by-laws.

Cluses 26 to 29 and 31 reproduce the existing provisions of the present Act without any material alteration.

Clause 30 differs from the provisions contained in section 9 of the existing Act in that it creates a presumption as to service of notice.

Clause 32 which is based on section 4 of Act III of 1897 is designed to protect persons acting in good faith.

Clause 33 provides for the protection of persons liable for a breach of contract due to his obeying a lawful order of the Board.
